

### Reinforced / Braided PVC Hose

Chemical resistant and suitable for food and drink distribution, our reinforced braided PVC hose is designed to be low maintenance and capable of withstanding high pressures.

#### Flexible & Durable

Reinforced with polyester yarn, our three ply PVC constructed hose offers reliability at high working pressures. Manufactured from top quality crystal clear P.V.C compounds, this product is extremely flexible and comes coupled with a glass finish internal bore allowing for excellent flow rates.

#### Chemical Resistant

Resistant to a wide range of chemicals our reinforced, branded PVC hose is specifically designed to transport pressurised liquids, chemicals and gases, such as reducing agents, diluted acids and alkalis.

#### Food Safe

We manufacture with minimum toxicity PVC to comply with U.S.F and D.A making it ideal for food and drink products and catering use. This product is 'Food and Drink Approved,' and will ensure no unwanted odours or

#### Coil Lengths & Colours

All our tube sizes are available in various colours, with a standard length of 30 metres. Alternative coil lengths
